

# Transform your SAP landscape

Discover EPI-USE Labs' SAP-certified solution suites

## HCM/HXM Productivity Suite

Your complete solution to SAP® & SAP® SuccessFactors® Integration

### Variance Monitor™

Highlight variances in SAP® HCM data

### Query Manager for HCM™

Simplify and secure SAP® HCM reporting

### Document Builder for HCM™

Generate professional, richly-formatted documents

### Data Sync Manager for HCM™

Enjoy flexible, secure data copying and scrambling

*"The beauty of this product is our testing process is easy to follow and now takes days instead of months."*

Sam Musharbash, Senior Business Analyst,  
Payroll Support, University of Tennessee

## Data Sync Manager (DSM) Suite

Solve all your SAP® test data & scrambling needs

### System Builder/Shell Sync™

Avoid costly test system refreshes

### Client Sync™

Reduce downtime with high-performance client copying

### Data Secure™

Protect your sensitive SAP® data

### Object Sync™

Get reliable test data: select and copy only the data you need

*"We wanted to be 100% confident that all sensitive data was masked. We needed a product that would remove the manual effort, allow us to schedule jobs and enable us to comply with regulations. That product proved to be Data Secure."*

Jan Huizinga, Technical consultant, Rabobank

## Data Privacy Suite

Comply with data privacy legislation:  
Data Privacy Suite for SAP® solutions

### Data Secure™

Solves your data security challenges

### Data Disclose™

Rapidly retrieve sensitive personal data

### Data Redact™

Intelligently alter or remove sensitive data

### Data Retain™

Proactive rule-based redaction of sensitive data

*"Thanks to Data Secure, we can anonymize all sensitive SAP® HCM data, such as employee-related data, in a very short time. The biggest advantage of Data Disclose is that data integrity is guaranteed; customers' sensitive data is anonymized but all orders and items sold are still accessible. All test systems stay fully functional, and test orders are still editable."*

Malte Podszus, Consultant FI/CO/HR, MAPA GmbH
