

Simplify your SAP and SAP SuccessFactors integration

Easily detect integration and replication issues between your SAP and SuccessFactors systems before they impact your business. The stakes are especially high when it comes to Payroll.

Increase efficiency:
Find and compare data issues quickly for faster resolution

Improve data quality:
Minimize replication errors across systems

Streamline communication: Schedule and automate reports that notify your teams

Data transparency:
See the data mismatches on both systems in one clear view

Tailored service:
Best practices leveraged and adapted for your setup

Solve your SAP & SuccessFactors integration challenges

When you run both SAP and SAP SuccessFactors, you face unique integration challenges. Data replication is meant to be seamless, but in reality, many of our clients experience challenges in monitoring and identifying data replication issues due to the complexity of the data model and integration.

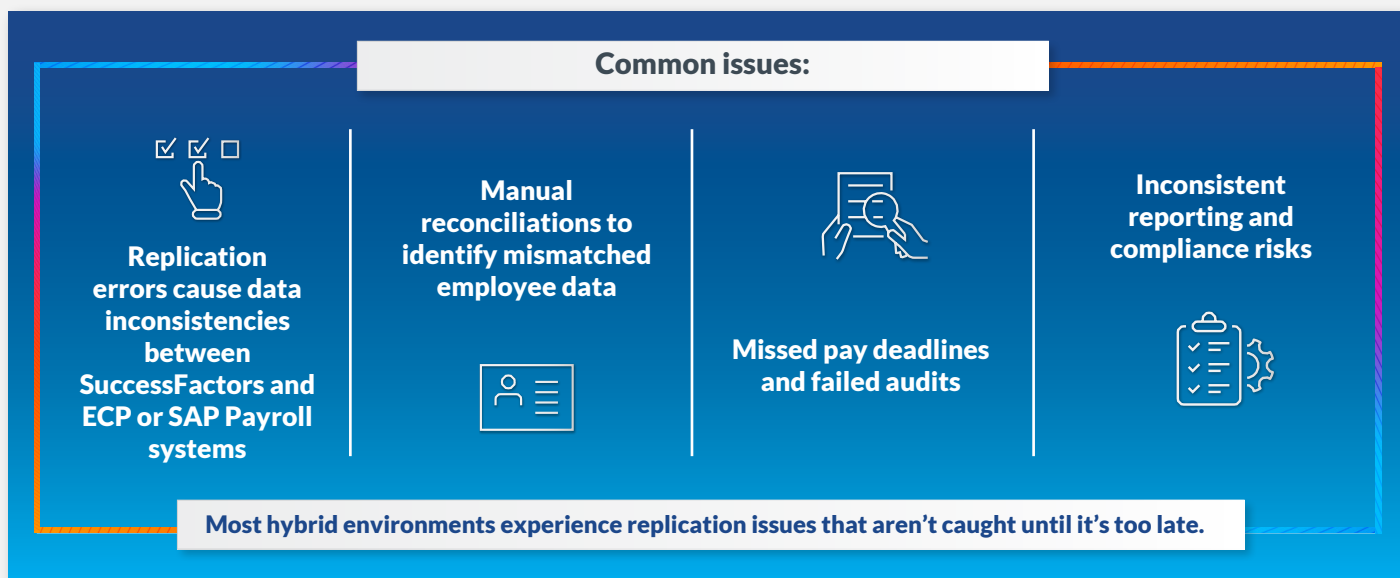

EPI-USE Labs' Integration Monitoring service provides the tools and content to ensure your integration functions without interruption. This service also provides the necessary audits and automated alerts for items that require attention. Consider it an insurance policy for your integration, leveraging an SAP-certified solution that is also approved to run on SuccessFactors Employee Central Payroll.

The Integration Monitoring solution has been developed using the EPI-USE Labs SAP-certified solutions including **Query Manager™**.

The challenge

Disparate systems. Duplicate effort. Costly mistakes.

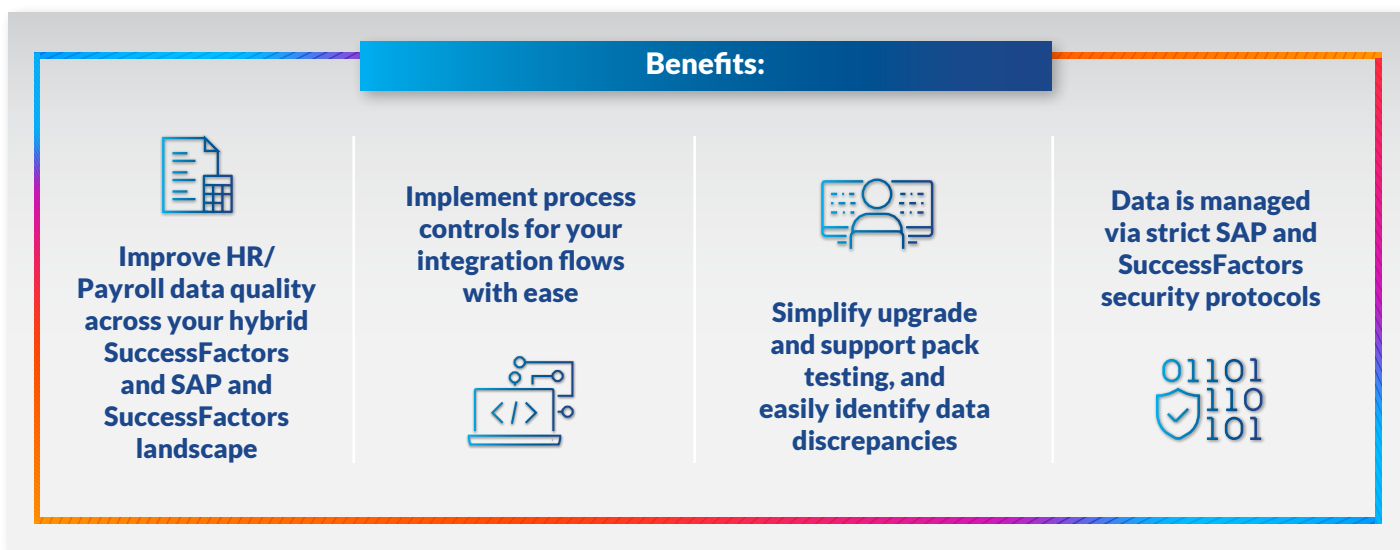

Running multiple SAP systems (e.g., EC - ECP, EC - ECC) side-by-side sounds seamless — until it's not.

The solution

Integration Monitoring by EPI-USE Labs, powered by the SAP-certified Query Manager solution.

Detect data mismatches and replication issues before they impact your business.

Discover integration monitoring by EPI-USE Labs

SAP Certified

Integration with RISE with SAP S/4HANA Cloud

As a global software solutions and managed services company, EPI-USE Labs helps you to maximize the performance, management and security of your SAP® and SAP SuccessFactors® systems.
